

Bob Hoyler

Bob is married to Barbara and has two grown children who both live in Massachusetts. He served in the Army for two years during which he was an instructor at the U.S. Army Engineer School and served a year in Viet Nam. Bob has a master's degree in geotechnical engineering and a Juris Doctorate.

During his working career, Bob was a member of the Massachusetts Bar and several professional Civil Engineering and Geotechnical Engineering associations.

As president of his own consulting firm, Bob has a long history of working with both individuals and groups to accomplish a common goal. He has served on the BAJA Board of Directors for 9 years, member at large for 3 years, Secretary for 5 years and President for 1 year. Over the years, Bob has built a good working relationship with the Pima County Parks and Recreation Department, which would be a valuable asset for BAJA.

Bob is running for the BAJA Board of Directors to help advance the objectives and goals as determined by the membership and Board of Directors. He has acquired extensive long-term knowledge, knowing not only what we do in BAJA, but why we do it. Bob believes that this institutional knowledge may be of use to the remainder of the Board in making decisions going forward.
